Professional Profile

Results-driven web developer with a Bachelor's degree in Electronics and Electrical Engineering and over 4 years of experience in web development. Led a team of 6 developers and 2 product designers to successfully deliver a high-traffic event booking website, improving client satisfaction by 20%. Managed multiple full-stack projects from concept to deployment, with a focus on optimizing performance and SEO, leading to a 25% increase in application stability and a reduction in customer support inquiries. Skilled in collaborating with cross-functional teams and independently managing projects that achieve measurable results.

Education

BSc Electronics and Electrical Engineering (August 2023)

- Obafemi Awolowo University, Ile-Ife, Osun state.

Diploma Cloud Engineering (August 2024)

- Altschool Africa

Experience

Fullstack Developer (June 2025 – Present)

Cotton Digital (Surulere, Lagos)

- Converted UI/UX designs and wireframes into fully functional WordPress themes and page layouts using Elementor and custom CSS.
- Built, customized, and maintained responsive WordPress websites, ensuring performance, accessibility, and cross-browser compatibility.
- Bridged the gap between design and WordPress implementation, translating visual concepts into clean, scalable, and user-friendly websites.

- Managed website structure, content, and styling within WordPress while maintaining brand consistency across pages.

Frontend Engineer (September 2024 – June 2025)

Link Technologies (UK)

- Built responsive, high-performance user interfaces from UI/UX designs using HTML, CSS, JavaScript and React, ensuring cross-browser compatibility.
- Collaborated closely with designers and backend developers to translate product requirements into clean, reusable and scalable frontend components.
- Optimized frontend applications for speed, accessibility, and usability, improving user experience across desktop and mobile devices.

Frontend Engineer (January 2022 – February 2024)

Prudent Business Group (Dartford, England)

- Bridged the gap between graphic design and technical implementation, ensuring a seamless user experience.
- Responsible for the development and maintenance of websites and web application user interfaces.
- Led a comprehensive testing initiative to assess app performance and user experience, resulting in a 25% increase in overall application stability and a reduction in customer support inquiries related to functionality.

Skills

- Analytical and critical thinking skills
- Proficient in Microsoft Office Suite
- Good communication and interpersonal skills
- Solid knowledge of HTML5 and CSS3
- Good understanding of SEO principles
